

PROXY-45.125.194.34

```
graph TD; Proxy([PROXY-45.125.194.34]) --- G1(( )); Proxy --- G2(( )); G1 --- B([42qv1...]); G2 --- B;
```

A network diagram with four nodes. At the top is a large gray oval labeled 'PROXY-45.125.194.34'. Below it are two green circles and one blue oval. The gray oval is connected to both green circles by thin black lines. The two green circles are connected to the blue oval, which is labeled '42qv1...', also by thin black lines. The blue oval is located at the bottom right of the diagram.

42qv1...
